1 Really enjoyed this class. Mr. Bubb was very helpful and was always willing to help us when we did not get something. I liked that it was a small class so he got to know us on a personal level, and he could easily challenge us and help us learn the materials better. It was very fast pace being a mini mester so that was challenging for me, but I think if this were a full semester class I would have enjoyed it much better. It is a very interesting class and I think that it will help me out later in life.
2 I was very concerned that statistics was going to be a hard course. Mr. Bubb has encouraged me to think critically throughout the entire course, but it was never too challenging to where I wanted to give up. It was always just enough to make me want to try a little harder. The course overall was great and I will be recommending this teacher to my friends who need to take statistics in the future.
3 I really liked the worksheets we did in class, it allowed me to understand the material really well and get a good grasp on it.
